From Runway to Reality *Spring 2009 Trends Presentation*

If you were not able to make it to this fabulous event, we have included information on the Spring 2009 Trends. What we can't do for you is replace what you missed that evening. In addition to all of us obtaining some valuable information, Jeanne Ruberti actually took us through Saks to show us exactly what has come down from the runway designs to the stores. We toured the designer sections, saw their wonderful new shoe section of the store and concluded with visiting Chanel to actually see and try what is new in makeup. A wonderful evening was had by all!
